

# Clasion

It is an study website for college students where they can find books, previous year papers, study material and much more. Here students can upload and download the materials for free.

## Features

**Easy access to study materials**

More than 10K+ materials on one platform. No time wasting on finding previous papers and study materials.

**Offline Access**

Download any materials or question papers in the app for later offline use.

**Seniors Students Support**

Juniors can easily contact with seniors on a chat session for any queries related to carrier and studies.

**Passive Income for Students**

By uploading materials and study content on clasion students can earn money.

**Smart PDF Preview**

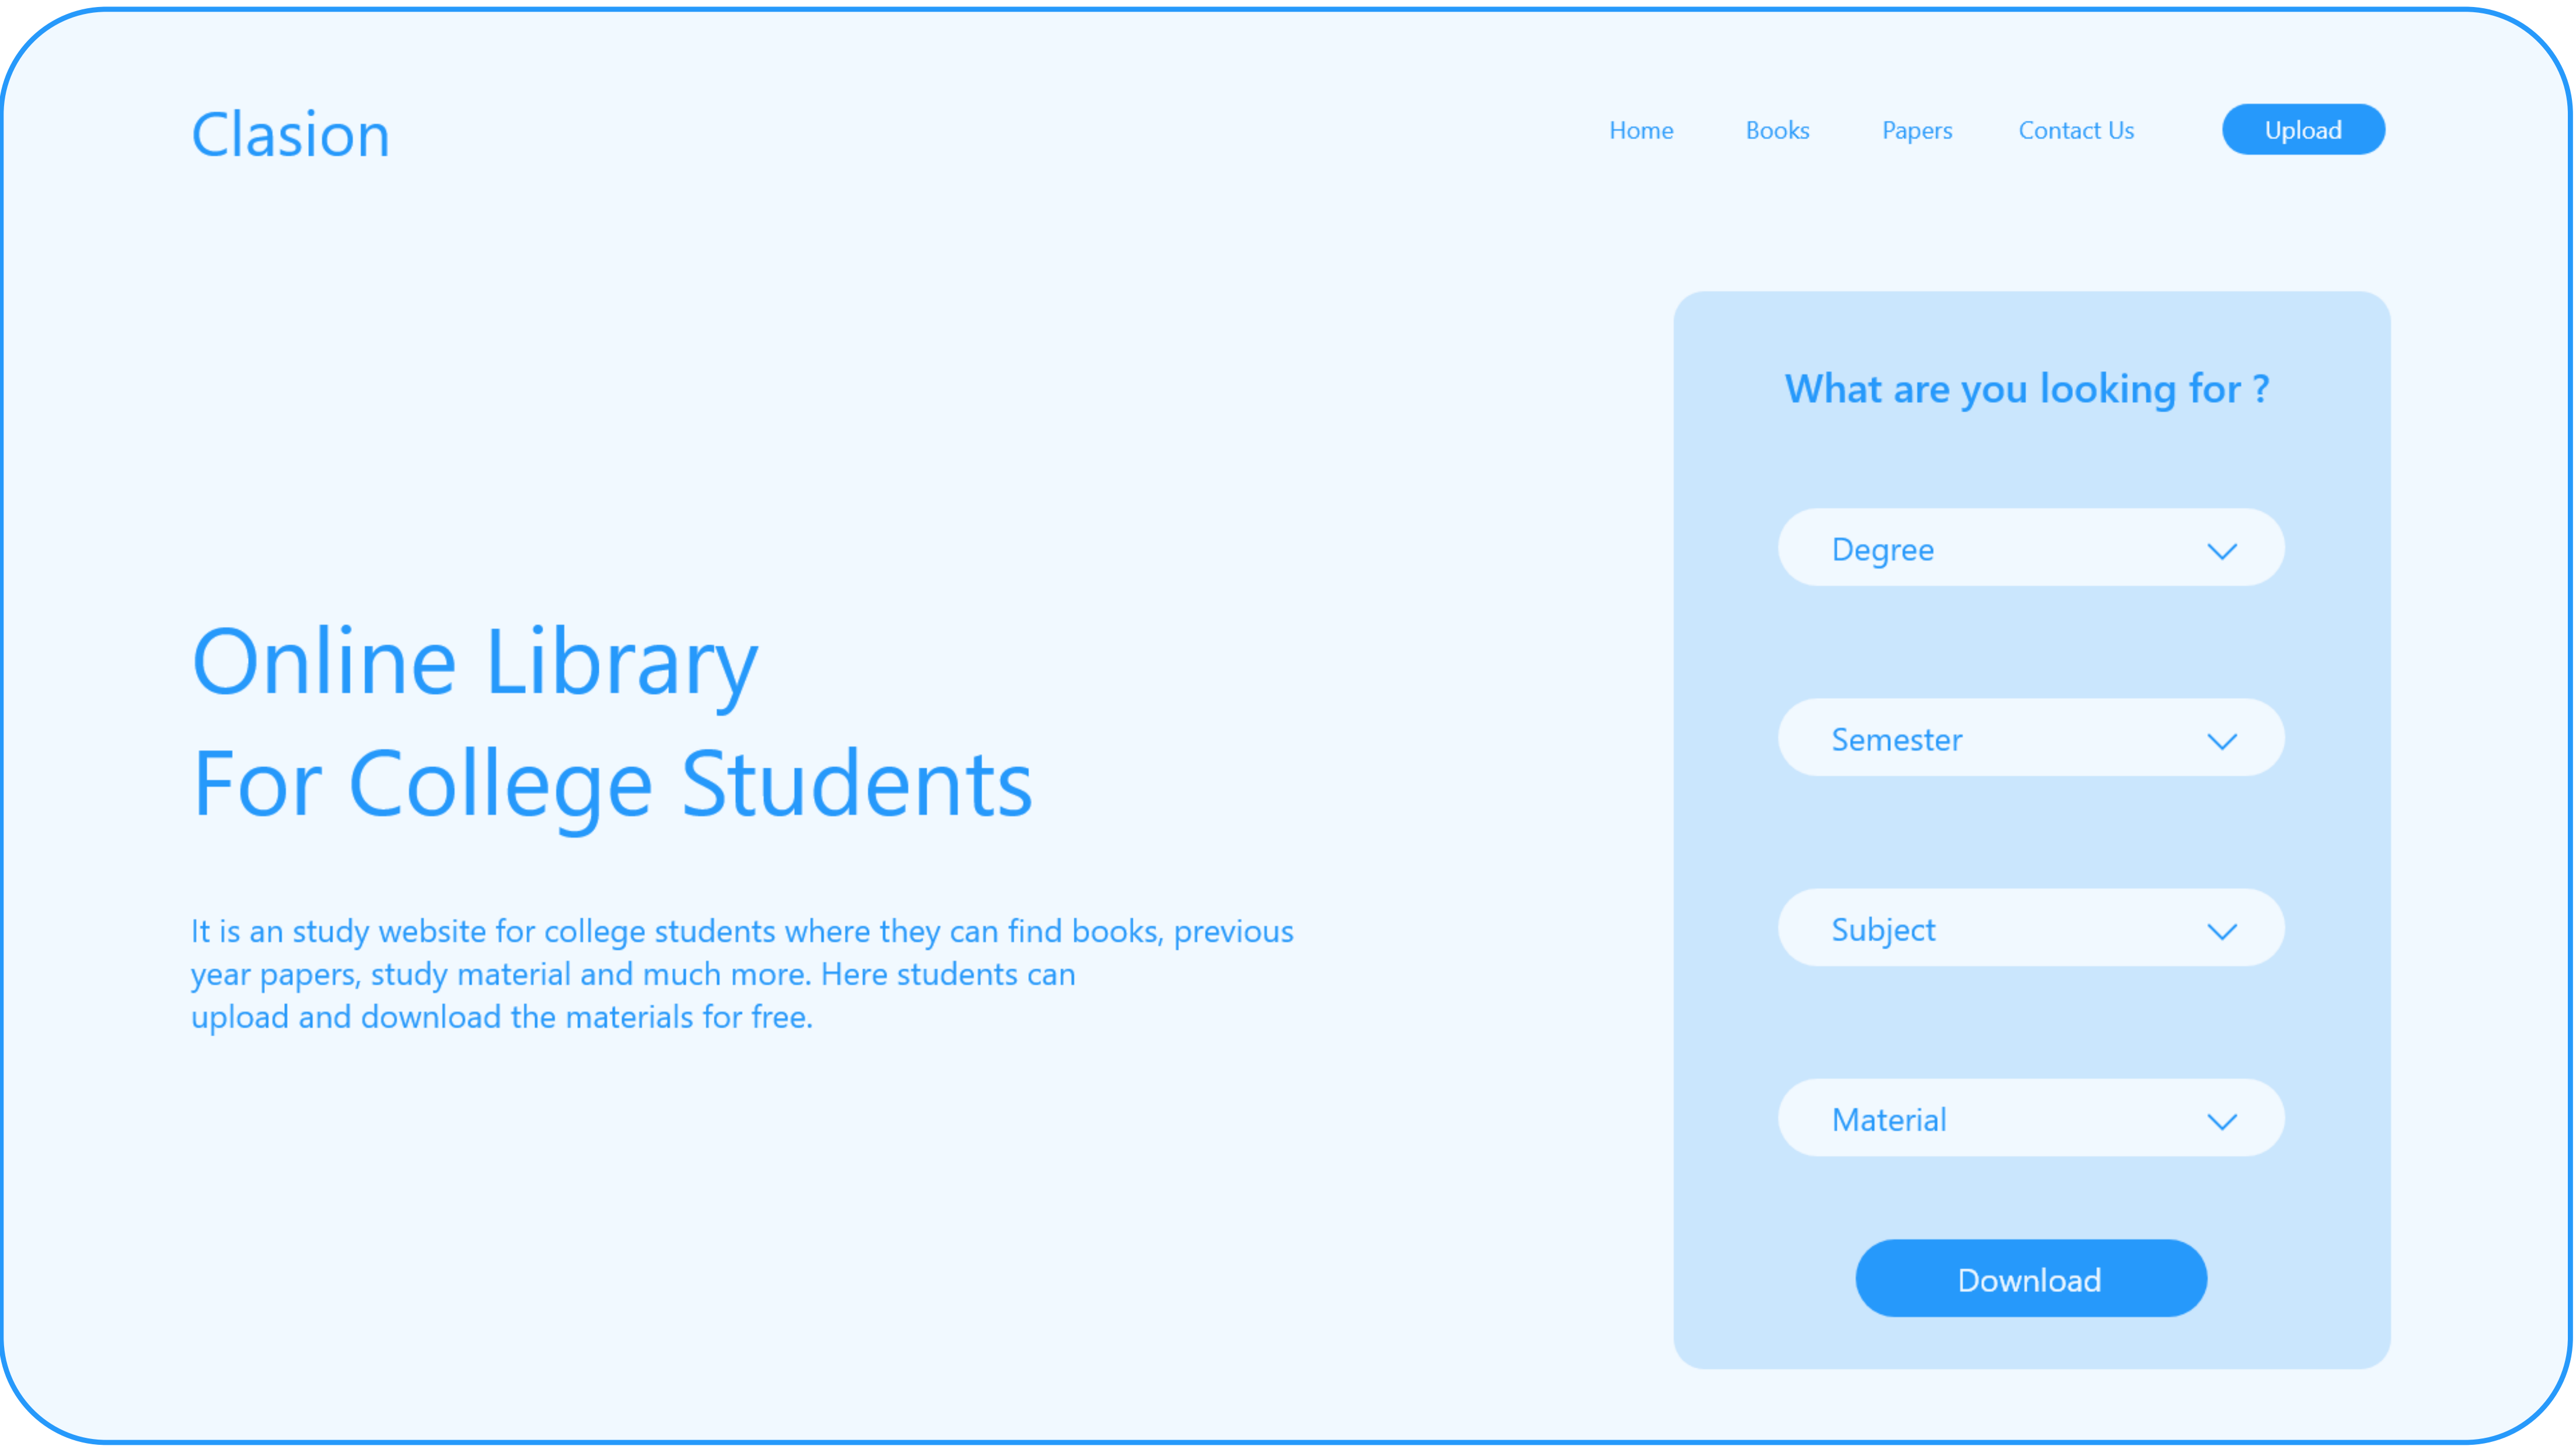

There is smart build PDF preview, which allows you to add bookmarks or highlight something in the page without any editing app.

**Free Unlimited Access**

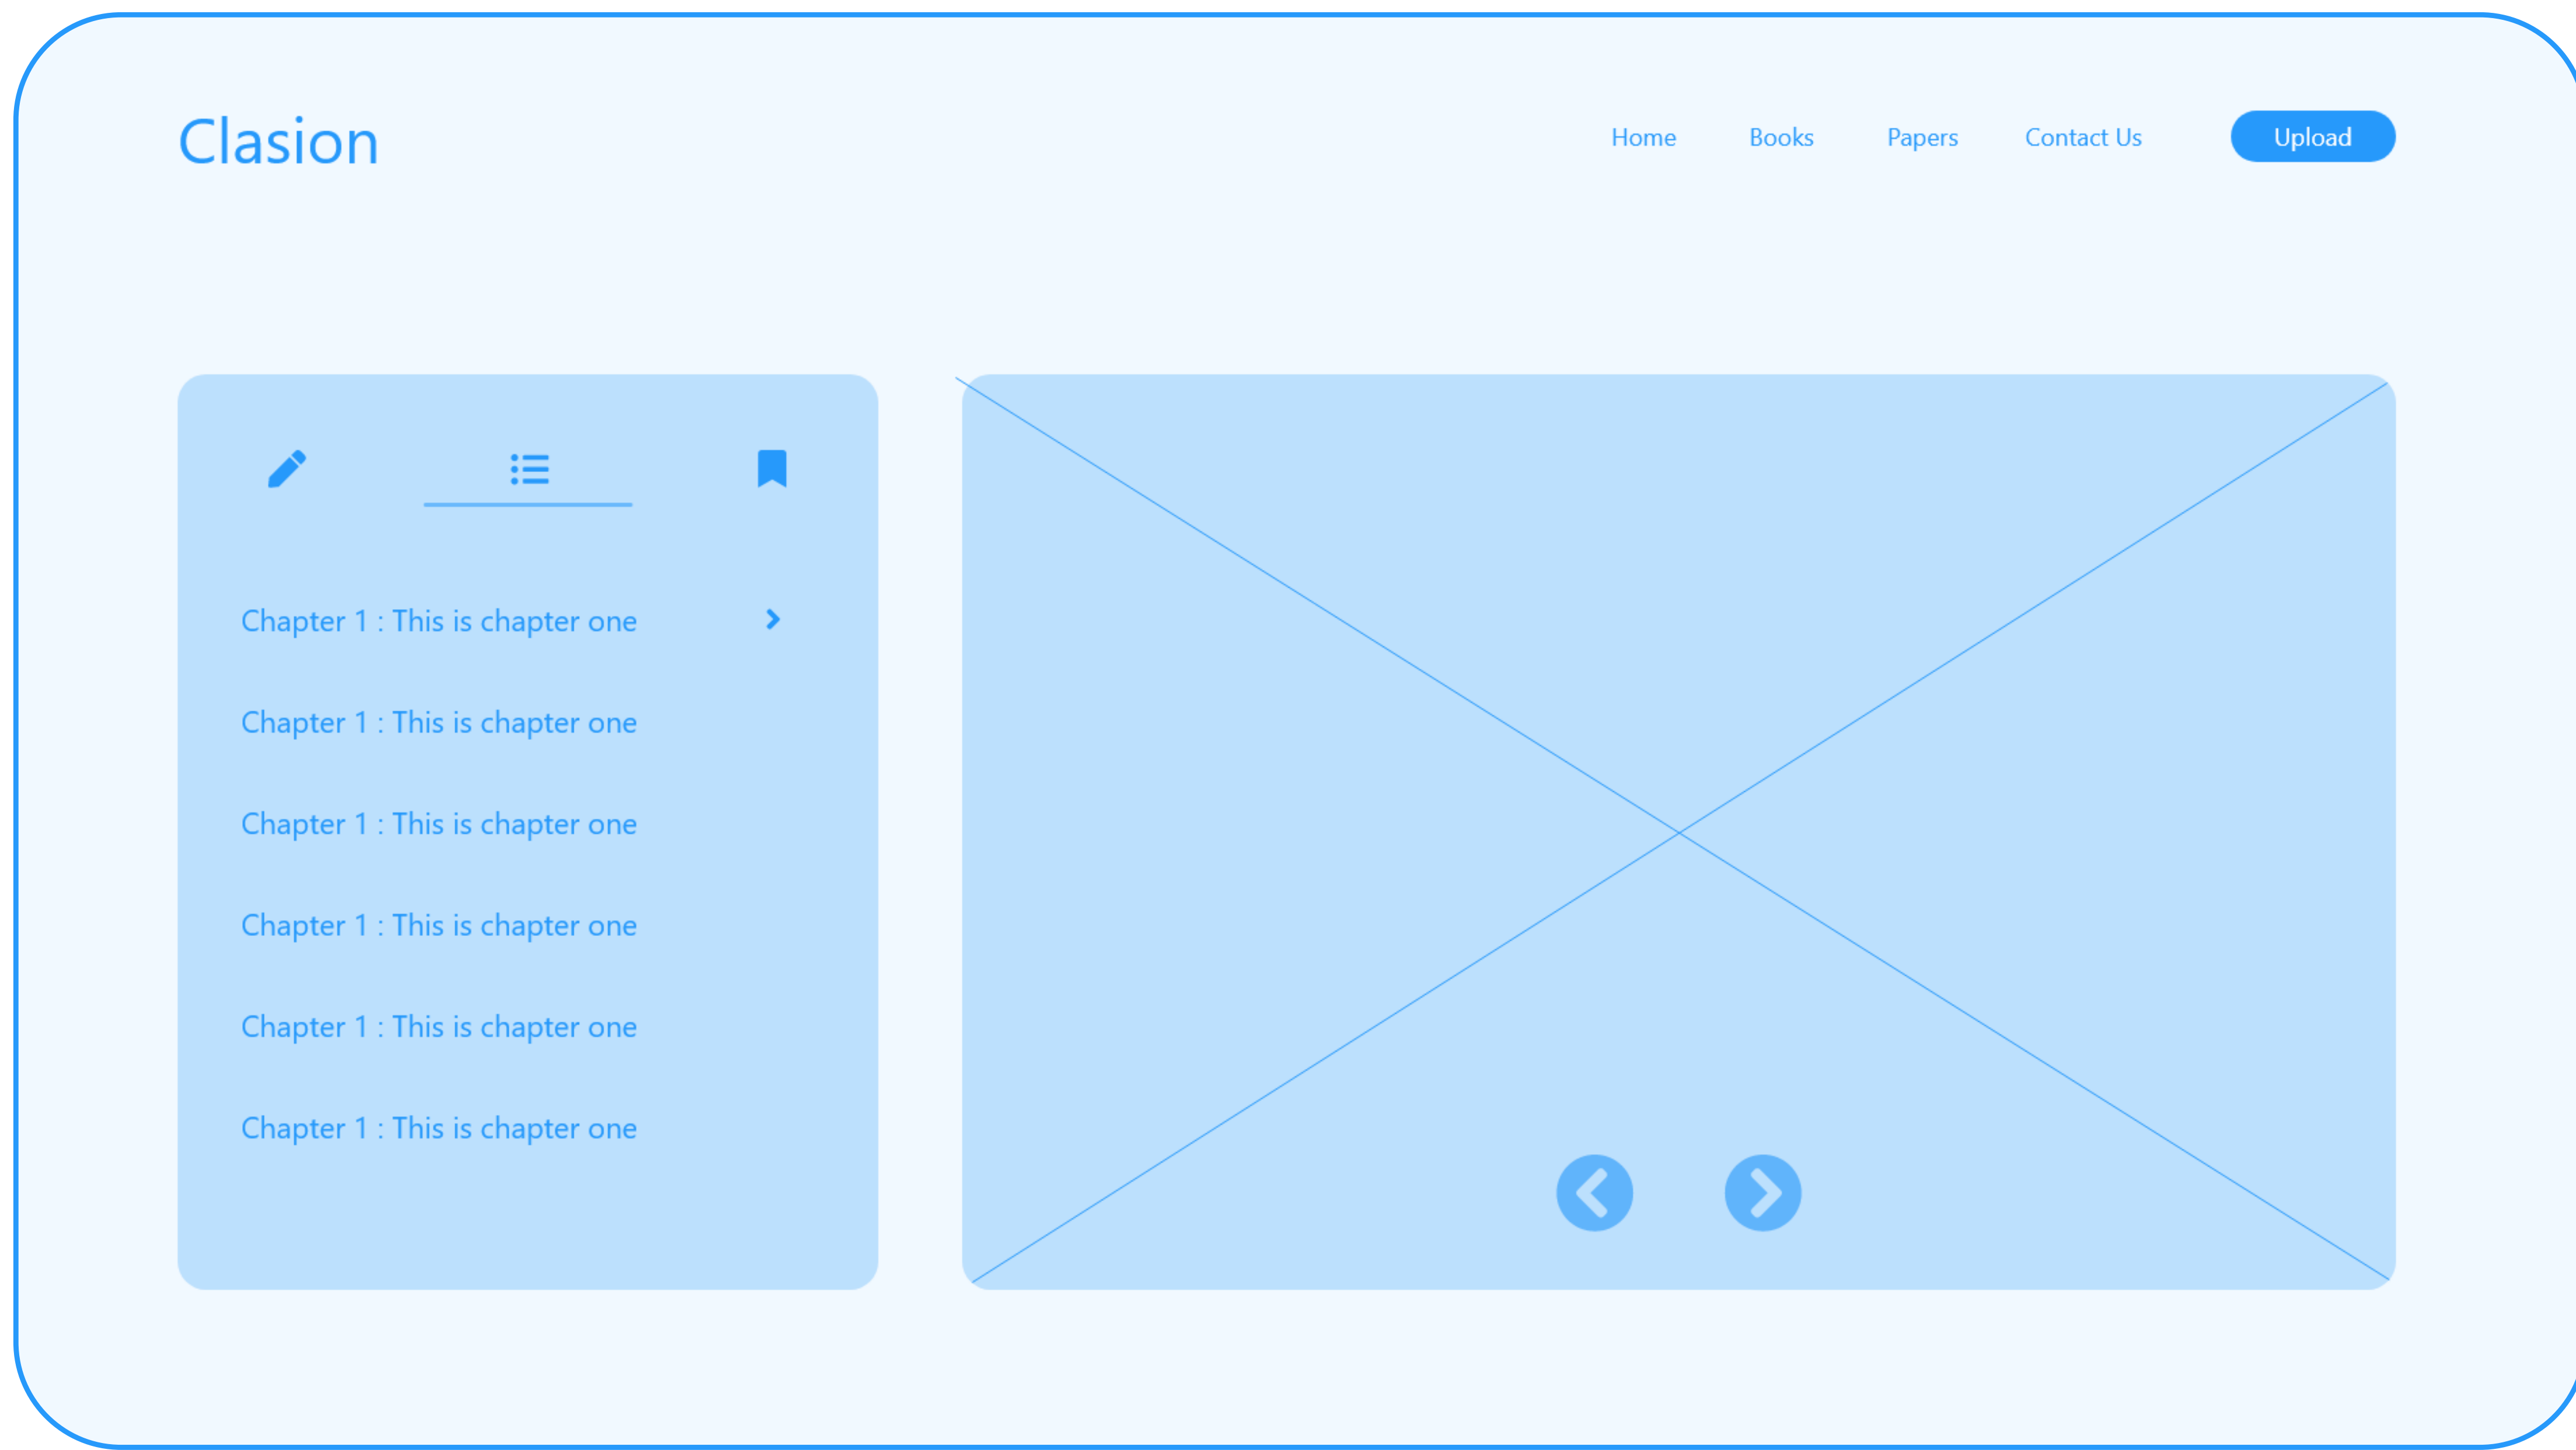

Students don't have to pay any amount in order to access any material or question papers or even to download papers.

## UI Wireframes

### Homepage

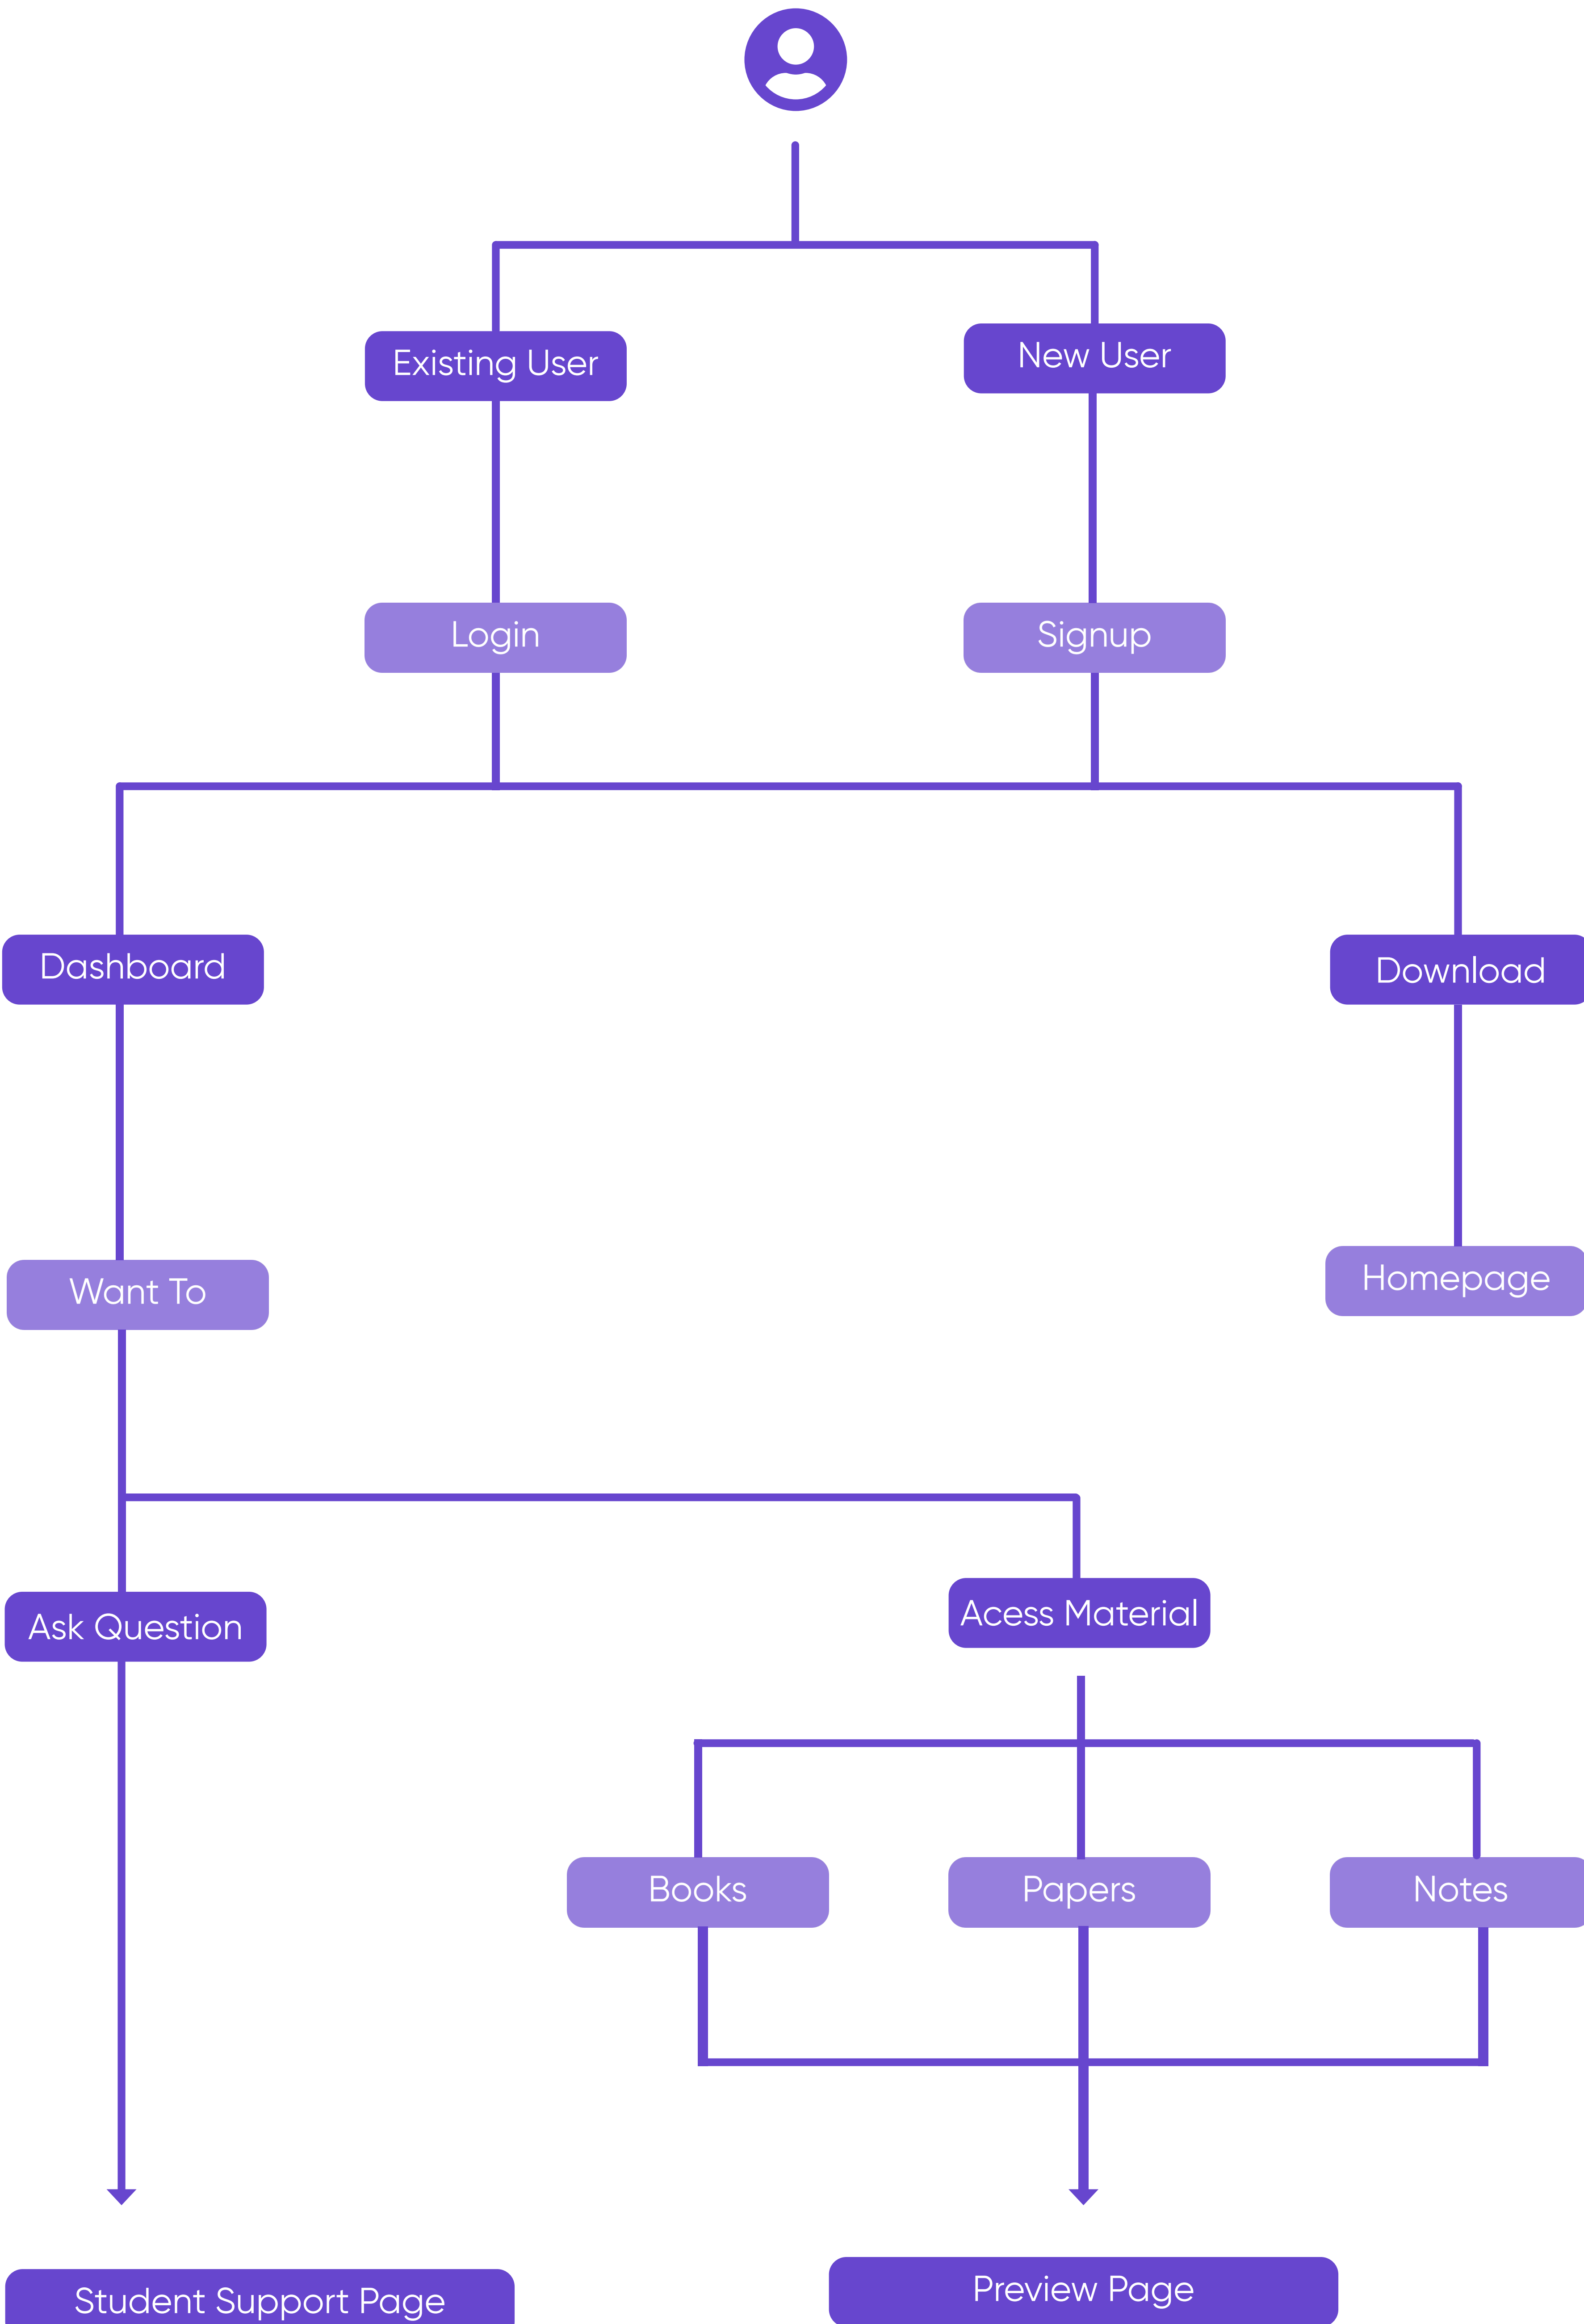

This is the homepage of website which contains a download menu in which user have to just select the category and they can easily download the material in no time.

### Smart PDF Preview

This is the preview page in which all type of study material can be previewed, user can add bookmarks or notes and there is also a content section which is predefined by creator of material

## Application User Flow
